

CONTRACT TERMS – SECURE (ACRON, AIP, JUNE5)

VIDEC.

VIDEC Data Engineering GmbH
As of 10/2026 (V26.10-01)

1) SCOPE

These contract terms apply from 15 October 2026 to all existing subscriptions and software update contracts "acronsecure", "AIPsecure" and "JUNE5secure" (hereinafter "Secure") and replace the previous contract terms, most recently revision V25.08-01. The fee rate, scope of services and minimum term remain unchanged. Clause 4 applies to extensions ordered on or after 15 October 2026. Individual special agreements, for example in annexes to the contract, remain unaffected.

Any further need for support services may, however, be purchased additionally as a service. The customer's rights in respect of defects in the purchased licences and the provision of security updates in accordance with the statutory provisions remain unaffected.

2) START, TERM AND TERMINATION

The subscription begins on the first day of the month in which it is concluded. The minimum term agreed upon conclusion (acron 2 years, AIP and JUNE5 1 year) remains unaffected. Thereafter, the subscription is automatically renewed for a further year in each case unless it is terminated with 3 months' notice to the end of the billing year (Clause 3). Notice of termination must be given in text form (for example by email to sales@videc.de) or in writing to the following address:

VIDEC Data Engineering GmbH
Contrescarpe 1
28203 Bremen

If the licensee's (subscriber's) company is sold or changes its name, this subscription automatically transfers to the new company.

If the subscription was concluded with VIDEC via a third party ("contractual partner") and that party terminates its business relationship with VIDEC, or its company is sold or liquidated, VIDEC is entitled at any time to approach the end customer and to continue the existing subscription directly with the licensee (subscriber).

3) CALCULATION AND PAYMENT TERMS

The fee for Secure is 15% of the currently applicable list price of the licences covered by the subscription and is invoiced annually in advance. An increase in the list price only affects billing years beginning at least three months after notification of the increase in text form.

The billing cycle agreed upon conclusion applies; unless otherwise agreed, the following applies:

- acronsecure: If the subscription is concluded during the current calendar year, the fee for that year is calculated pro rata for the remaining months, from the month of conclusion until the end of the year. Thereafter, the annual fee is invoiced at the beginning of each calendar year.
- AIPsecure and JUNE5secure: Upon conclusion, billing is for one year (12 months) in advance, starting with the month of conclusion. Thereafter, the annual fee is invoiced annually in the month in which the subscription began.

A different billing arrangement, in particular a changeover to the calendar year, may be agreed as part of an order pursuant to Clause 4. VAT is charged in addition at the rate applicable at the time of delivery. Invoices are issued in digital form. The payment term for subscription fees is 14 days from the invoice date. The General Terms and Conditions of VIDEC Data Engineering GmbH apply.

4) LICENCE EXTENSION

If the licence is extended, the resulting change in the fee for the Secure subscription must be approved by means of a new order; the start and billing of the changed fee are governed by that order.

An extension is an increase in the number of:

- for acron, process variables and/or workstations.
- for AIP, agents, users, recipients, transmission channels.
- for JUNE5, users, measured variables.

and/or other available options of the respective products.

5) SCOPE OF SERVICES

The "Secure" subscription provides the user (subscriber) with the continuous provision of the latest versions for the licences covered by the subscription. Specifically, the following services are included:

- Entitlement to download and use updates for the licences included in the subscription. The latest version is available for download. The customer is informed of new versions via our email distribution list.
- Information on new products and online seminars.

Installation of the software is not included. Nor are any services outside our described support offerings.

6) LANGUAGE VERSION

This English version is a convenience translation. In the event of any discrepancy between the English and the German version of these contract terms, the German version shall prevail.
